

## WHO is Biz Works?

Welcome to Biz Works! My name is Tyler Powell and I started Biz Works to follow my passion...to help entrepreneurs start, grow and succeed in business...to help people believe in themselves and achieve their dream of business ownership.

Fundamentally I believe that **operating your own business should be fun!** If it's not, we may as well work for someone else.

Over the years I have **helped over 30 entrepreneurs start their very own business.** I have also helped manufacturing companies improve profitability in an ever changing world market.

My experience and personality will help you navigate the "unknown waters" and **have fun doing it.**
